

## Puppy Happy Hour/Socialization Agreement

ver. 10/2020

Owner's Name: \_\_\_\_\_

Pet's Name: \_\_\_\_\_

Address: \_\_\_\_\_

Date of Birth or Age: \_\_\_\_\_

\_\_\_\_\_

Breed: \_\_\_\_\_

Home or Cell Phone: \_\_\_\_\_

Color/Description: \_\_\_\_\_

- Socialization play dates are limited to 6 puppies per session and are first come, first served. Puppies can be dropped off and picked up between 10am and 12pm Tuesdays, Thursdays, Fridays, and Saturdays only.
- Puppies must be six months of age or less to attend socialization play dates, and show no signs of aggression toward people or other dogs, or symptoms of any communicable diseases.
- For your puppy's protection, all vaccines must be current to attend socialization play dates. Puppies must have proof of current DHPP vaccine, Bordetella vaccine, and Rabies vaccine (if greater than 16 weeks of age).  
*\*\*If you are unable to provide proof of vaccination, your puppy will not be able to participate.*
- Your puppy must be free of internal and external parasites by visual inspection. If not, treatment will be performed at your expense.
- Owners may bring personal toys for puppies, but please note that Alpine Animal Hospital is not responsible for any lost or destroyed personal items.
- We utilize positive reinforcement training to reward good puppy behavior. If you want your puppy to have a specific type of training treat, please bring it with your puppy for continuity. Alpine Animal Hospital is not responsible for any symptoms your puppy may exhibit from an abrupt diet change.
- Puppies use their teeth and nails to play, so please do not be alarmed if your puppy comes home with minor scratches. If your puppy becomes sick or seriously injured during his/her visit, we will attempt to contact you before treating, unless emergency intervention is required prior to contact. If we are unable to reach you in a reasonable amount of time, your pet will be diagnosed and treated at your expense.
- Socialization and positive handling training methods are only part of a recommended training program for your puppy. Results are not guaranteed, and owners should continue training at home for best results.

Puppy Socialization Visits		
	Per Day	3 Pre-Paid Sessions
Supervised socialization play date	\$10.00	\$30.00
Socialization play date with positive handling training sessions	\$25.00	\$75.00

Do you authorize photos of your pet to be collected and used for AAH social media or other digital or print marketing?
